Sustaining Improvement Inspection of St Brigid's Primary School, Cloughmills, County Antrim (303-0890)

The previous inspection in 2014 evaluated the overall effectiveness of St Brigid's Primary School as very good¹. In the interim, a teacher was seconded to another school. A sustaining improvement inspection (SII) was conducted on 22 May 2017.

Four of the teaching unions which make up the Northern Ireland Teachers' Council (NITC) have declared industrial action primarily in relation to a pay dispute. This includes non co-operation with the Education and Training Inspectorate (ETI). Prior to the inspection, the school informed the ETI that all of the teachers would not be co-operating with the inspectors. The ETI has a statutory duty to monitor, inspect and report on the quality of education under Article 102 of the Education and Libraries (Northern Ireland) Order 1986. Therefore, the inspection proceeded and the following evaluations are based on the evidence as made available at the time of the inspection.

Focus of the inspection

Owing to the school's participation in industrial action:

- the inspection was unable to focus on evaluating the extent to which the school is capable of demonstrating its capacity to effect improvement through self-evaluation and effective school planning; and
- lines of inquiry were not selected by the school from the development plan priorities.

Key findings

The ETI was unable to evaluate:

- the lines of inquiry; and
- the quality of learning and teaching within the classrooms.

It will be important that the employing authority, school governors and the staff plan for, and manage, issues related to the sustainability of the school provision and school budget, in order to address the current and future needs of the children and the staff.

Safeguarding

The ETI met with the principal, and representatives of the board of governors and a group of children from year six. The principal provided a range of information and documentation in relation to school improvement and safeguarding.

During the inspection, the school provided evidence that satisfactory arrangements for safeguarding reflect broadly² the guidance issued by the relevant Departments. The children reported that they feel safe in school. They know what to do and who to talk to if they are concerned about their safety or well-being. However, owing to the action short of strike, the ETI was unable to evaluate fully the outworking of the arrangements for safeguarding in the school.

¹ From September 2015, the overall effectiveness of a school evaluated previously as outstanding or very good has been reported as a school demonstrating a high level of capacity for sustained improvement.

² From January 2017, arrangements evaluated previously as satisfactory are reported as reflect broadly the guidance.

Conclusion

Owing to the impact of the action short of strike being taken by the staff, the ETI is unable to assure parents/carers, the wider school community and stakeholders of the quality of education being provided for the children. This will be reflected in future inspection activity.
