## Why is there a fee for Educational Oversight inspections and annual monitoring review inspections?

The ETI does not receive any funding to cover the direct costs incurred in Educational Oversight or Annual Monitoring Review inspections. As a result, the costs of such inspections must be borne by applicant organisations.

## What does the application fee include?

The application fee for Educational Oversight inspections includes the receipt and processing of an application, and the organisation of an inspection by the ETI. You will receive confirmation of the acceptance or otherwise of your application. If your application and inspection process is confirmed, the Inspection Stage fee must then be paid in full before the inspection can take place. It is the organisation's responsibility to ensure that the appropriate officials in the Home Office are fully informed of the status of the application and inspection process.

## Will the inspection fees be refundable in the event of an unsuccessful inspection outcome?

No.

## If the outcome of the original inspection is not successful, is there a follow-up inspection process and is there a fee attached to this?

No. Please refer to Home Office guidelines<sup>2</sup> for organisations who fail to achieve Educational Oversight.

## What is an Annual Monitoring Review Inspection?

The Home Office requires the ETI to carry out an Annual Monitoring Review inspection of the quality of the provision offered by any organisation which has attained Educational Oversight, as part of a four year quality cycle.

## What is a Quality Improvement Planning Inspection?

This is a risk-based inspection for established organisations that have had two full education oversight inspections and demonstrated a high level of capacity for improvement.
