N/A not available

The trade unions which make up the Northern Ireland Teachers' Council (NITC) have declared industrial action primarily in relation to a pay dispute and also workload and other management issues. The industrial action includes non-co-operation with the Education and Training Inspectorate (ETI). Prior to the inspection, the school informed the ETI that none of the teachers would be co-operating with the inspection. The leadership co-operated with the inspection in relation to safeguarding responsibilities. The ETI has a statutory duty to monitor, inspect and report on the standards of education and professional practice among teachers under Article 102 of the Education and Libraries (Northern Ireland) Order 1986. Therefore, the inspection proceeded and the following evaluations are based on the evidence as made available at the time of the inspection.

2. Views of parents and staff

As a result of the action short of strike, the school did not distribute the online questionnaire information to parents and staff. Therefore it is not possible to report on the views of parents and staff.

3. Focus of the inspection

The ETI was unable to evaluate:

- outcomes for learners;
- quality of provision; and
- quality of leadership and management.

4. Overall findings of the inspection

Overall effectiveness	Unable to assure the quality of education
Outcomes for learners	No performance level available
Provision for learning	No performance level available
Leadership and management	No performance level available

KEY FINDINGS

5. Outcomes for learners

The ETI was unable to evaluate:

- the learning outcomes for the children;
- progression in the children's learning; and
- the children's wider skills and dispositions.

6. Quality of provision

The ETI was unable to evaluate:

- the quality of the curriculum;
- the effectiveness of the guidance and support in bringing about high quality individual learning experiences;
- the effectiveness and impact of planning, teaching, learning and assessment in promoting successful learning; and
- care and welfare.

7. Leadership and management

The ETI was unable to evaluate:

- the effectiveness of strategic leadership and governance;
- the effectiveness and impact of the leadership; and
- the effectiveness of action to promote and sustain improvement.

8. Safeguarding

During the inspection, the nursery provided evidence that arrangements for safeguarding the children reflect broadly the guidance from the Department of Education. However, owing to action short of strike, the ETI was unable to evaluate fully, the outworking of the arrangements for safeguarding in the nursery.

CONCLUSION

9. Overall effectiveness

Owing to the impact of the action short of strike being taken by the teachers, the ETI is unable to assure parents/carers, the wider school community and stakeholders of the quality of education being provided for the children. The nursery school is a high priority for future inspection with no further notice.

Inspection method and evidence base

The effective practice and self-evaluation questions which guide inspection and self-evaluation of pre-school settings, which were applied to this inspection, are available in the ETI publication *The Pre-school Inspection and Self-Evaluation Framework* at: <https://www.eti.gov.uk/publications/inspection-and-self-evaluation-framework-isef-effective-practice-and-self-evaluation>
